Simple to park Maverick can 0-turn in a tighter circle than the leading import. It can nip around corners and slide into tight parking spaces with amazing agility. nth; Public Can Decide on Nominees

The prospect of hard-fought primary competition has developed in both Madison county and Illinois, at least on the Democratic ballot. We hope there are contests for the March 1970 Democratic and Republican nominations, but caucuses by party leaders this month may discourage some of the potential candidates. It is less expensive to campaign some of the potential candidates, but there is a healthier climate for active citizenship when slatemaking in "smoke filled rooms" is avoided.

After all, it is the public which is governed, and it has a right to choose nominees rather than the decision being made by brokers of real or assumed political power.

Ive We Collectively Set on Human Life
The "eye for an eye" concept is ridiculed
as a part of our barbarous past, but its total
abandomment in recent years has coincided with
a breakdown in respect for the law and a cruel
violence and in barbarianism, crime, physical
violence and in point is the March 27 robbery
and kidnapping of a Madison service station
attendant, who was told he would be tied to a
tree and used for "target practice." Instead, he
was given a choice of the type of gun with which
he was to be killed, and was shot in the chest
with a pistol.

Critically wounded, he was dumped out of
a cra and left for deads; if he had died, it would
have been difficult to trace and convict the

assailant.

America supposedly sets a high value on human life and the right to live. But the value was cheapened considerably last week when a sentence of two to six years was imposed.

Madison s Chain of Nocks Bridge

Should the Madison-owned Chain of Rocks
Bridge be torn down? An eloquent answer was
provided last week when it was able to handle
diverted auto traffic for several hours after runaway barges had struck the nearby Interstate
270 bridge. The latter Bridge was put back in
use after inspections show it had not been
damaged.

CHOOSE EXTRA FIRM OR GENTLY FIRM

Maybe you bought only for comfort. Only now it's not so comfortable any more. Sealy makes a mattress for comfort, too, but they give you a special kind of firm support designed in cooperation with leading orthopedic surgeons. No morning backache from sleeping on a too-soft mattress. And when it comes to comfort—this mattress can't be beat. Choose extra firm or gently firm. Firmness never felt so good!
